

THE CZAR'S PLAN FOR PEACE.

England Accused of Standing in
Way of Its Accomplishment.

A CONTINENTAL ALLIANCE.

Paris Temps Says Great Britain is as
Far Off as Ever From Conquer-
ing the Boers.

London, Sept. 25.—An editorial on the czar's visit to France in the Politika, a Czech organ of Prague, is quoted by the Vienna correspondent of the Times. The article says the impediment in the way of the Russian emperor's plan for peace, disarmament and the arbitration of disputes is the British empire, which is "carrying on a war in South Africa that would be a disgrace to barbarians." Great Britain, the editorial proceeds, has hitherto found too much advantage in the armed peace of Europe not to make every effort to maintain it. This must be fully realized by the peoples of Europe.

"Thus, in course of time," says the article, "the dual alliance may develop into a continental alliance such as Napoleon conceived, but which his idea of his own universal predominance prevented."

BOERS BY NO MEANS CONQUERED.
London, Sept. 25.—The correspondent of the Times in Paris says the recent British reverses in South Africa have afforded to the French journalists an opportunity, which they have hastened to seize, to point out the folly of Lord Kitchener's assumption that the war is over.

The Temps says that, after sacrifice of so many thousands of lives, the loss of so many millions of francs, the painful bankruptcy of the liberalism of a great country and the eclipse of its international conscience, Great Britain is as far now as it was on the first day of the war from the realization of its object—the conquest of the two Boer republics.

Bright Outlook for South Africa.

London, Sept. 25.—The Vienna correspondent of the Times says an encouraging report from the Austrian consul at Capetown on the economic prospects in South Africa. He says there are the best reasons to regard the future with assurance but adds that a stable government must largely depend upon the farmers, who after the war is over, must be provided with seeds, cattle, food and clothing, either by the British government or the local authorities.

Waiting for the Cup Races.

New York, Sept. 25.—Steam yachts here to attend the international cup races are strung all the way along the coast from New York to Greenwich, Conn. Many more are expected from Boston, Newport and other eastern cities. It is impossible to estimate the number of boats that will attend the races, but the indications are that all records will be broken in this respect. Anchored at Bay Ridge lies a boat that next to the two contestants, will arouse the greatest interest. This is the gallant old America, the schooner that fifty years ago brought the cup to this country. It will be kept in these waters until after the race for the cup.

Russian Students Want to Publish.

London, Sept. 25.—A dispatch from Odessa to the Times says the students have taken advantage of the greater freedom recently allowed to them to petition for permission to establish a periodical. It will be called the Word of the Student, and will be devoted exclusively to the interests of the students throughout the empire. It is hoped that the minister of education will permit the publication.

Mad Mullah Forms an Alliance.

London, Sept. 25.—A dispatch from Maraslies to the Times gives various mail news from East Africa. Emperor Menelik is still at Addis Ababa, where he is building a village. He is in good health. The Mad Mullah has concluded an alliance with the Medjoulin tribe, which is well provided with rifles and ammunition.

Belgian Trade League Congress.

London, Sept. 25.—The Brussels correspondent of the Times says the congress of trade leagues of Belgium has just closed at Bruges. This congress is different from most trades meetings but it is under the direct patronage of the Catholic church and has the approval of the Vatican. The business includes the discussion of measures to ameliorate the conditions of labor affecting both sexes and for the promotion of technical education of primary schools. All tendencies toward socialism were strongly condemned.

Argentine Budget Estimates.

New York, Sept. 25.—A dispatch to the Herald from Buenos Ayres says the government has submitted to congress a budget for next year's expenditures, estimated at 41,000,000 pesos gold, and 44,000,000 pesos paper; the revenues at 40,000,000 pesos gold and 45,000,000 pesos paper. The interest on the debt is 27,000,000 pesos, and 32,525,000 of the floating debt must be paid next year.

Seth Low Will Gladly Accept.

New York, Sept. 25.—Seth Low, who was last night nominated by the Republican and Citizens' Union conventions, is quoted in the Tribune as saying: "As soon as I receive official notice of their choice, I shall gladly accept."

To Protect Non-Union Men.

San Francisco, Sept. 25.—The Chronicle says that a number of prominent merchants and business men have raised a fund of \$150,000 with which to provide for an increase in the police force sufficient to put a stop to the assaults upon non-union working men and to assure peace and good order within the city. The plan has been submitted to the police commissioners, and it is understood that it meets with their approval.

Want Aid to Fight Forest Fires.

El Paso, Colo., Sept. 25.—John C. Joyce, register of the state land board, and M. J. O'Brien, special agent of the

Doctors

Consult your doctor. If he says, "Take Ayer's Cherry Pectoral for your cough," then do as he says. If he tells you not to take it, then don't take it. He knows. Leave it with him. We are willing. Physicians have been our friends for 60 years.

"For five years I suffered with bronchitis. A few weeks ago I began to take Ayer's Cherry Pectoral, and only two bottles entirely cured me."
Daniel B. Lipps, Alta, W. Va.

United States land office at Denver, has begun with the Indian with the interior department at Washington with a view of securing assistance from the government in fighting the forest fires in this section that have been ravaging the timber sections and threatening the settlements. A high wind has been blowing for the past twenty-four hours, and the fire on Tennessee mountain has become a roaring furnace. Unless the fires are placed under control soon there is no telling what the outcome will be. There is no danger at this time to the town of Eldora.

Spain Buying American Machinery.

New York, Sept. 25.—The World says: Spain is at present placing extensive contracts for railroad material and machinery in the United States.

Close to one thousand cars have been ordered from an American car and foundry company, which are to be used by the company of the Norte, the principal Spanish trunk line, and the Bilbao-Santander railroad. The government car factory at Trubia is to be equipped largely with Yankee machines, tools, etc. Large electrical orders are also being placed in this country.

Court Will Not Return to Peking.

London, Sept. 25.—A dispatch to the Times from The Hague says it is stated on high authority in the North China News that the court has definitely decided not to return to Peking for two years. It is added that the court will remain at Kai Pong Foo.

Successful Balloon Voyage.

Vienna, Sept. 25.—Herr Herbert Silberer, a well-known aeronaut, started Monday with M. Emile Claron in the balloon Jupiter at 10 p. m. They landed Tuesday at noon at Cuxhaven, covering a distance of 83 kilometers (53 miles) in fourteen hours.

Supply Ship Culgoa Arrives.

New York, Sept. 25.—The United States supply ship Culgoa in command of Lieut. Commander Hugo Osterhaus, has just arrived in port from Manila after a voyage of sixty-one days, a remarkably quick trip. The Culgoa touched at the ports of Colombo, Perim, Suez, port Said, Malta and Gibraltar on the way.

Big Brewery Burned.

New Haven, Conn., Sept. 25.—The brewery formerly owned by the M. Weidman & Sons company was totally destroyed by fire, involving a loss of \$90,000, with which there is an insurance of \$40,000.

Murder and Suicide.

Norwich, N. Y., Sept. 25.—Henry W. Wood, of Norwich, shot his former housekeeper, Mrs. Eliza Greenleaf, last night and then committed suicide. The tragedy occurred at Plymouth. Mrs. Greenleaf had been keeping house for Wood about three years. Two weeks ago she left him and went to live with Louis Carneros, her brother-in-law, at Plymouth. Wood has brooded much since her departure. The woman is not expected to live.

THE CANAL TREATY.

There is No Information Respecting Pauncefote's Negotiations.

New York, Sept. 25.—Commenting upon the canal treaty, the Tribune's London correspondent says:

There is no information respecting Lord Pauncefote's negotiations, and the press changes which have been suggested in Mr. Hay's canal treaty, but the prospects of a satisfactory adjustment of the points raised by the Senate are brighter than ever before. Lord Pauncefote has been resting in the country and has not been actively at work in influencing ministers before sailing for America in October. His labors ended before the ministers took their holidays and were scattered over the country, and he was satisfied with the result.

MACARTHUR ON PHILIPPINES.

Thinks Conditions There Are Favorable to a Republic.

Milwaukee, Sept. 25.—Gen. Arthur MacArthur, who recently returned from Manila, says that the conditions in the Philippines are favorable for the ideas of a republic.

At an Informal Reception Accorded him by the chamber of commerce he made a brief address in which he said in part:

"To my mind the beauty of our possessions in Manila lies in the planting of the flag of the United States in the eastern world. We are planting imperishable ideas in that far eastern country. We are carrying the doctrine of personal liberty there, and wherever the flag of the United States is planted, the process of just advancement is once planted. It is going to stay forever."

"The conditions there are favorable for the ideas of a republic."

SOUTH AFRICAN WAR.

England Feels Reassured Because Officers Only Blundered.

New York, Sept. 25.—The Tribune's London correspondent explains the prevailing English view upon the South African situation in the following dispatch:

War news from South Africa remains vague, but details of recent reverses are reassuring in one respect. Evidence points to the errors in the judgment of officers rather than to incapacity and staleness. The men of the rank and file fought well, and there was no lack of courage and spirit. DeWet's reappearance in some unexpected quarter is looked for hourly since the recrudescence of Boer activity after a long period of stagnation was evidently the result of preconcerted action among the commandoes.

Trying to Evade Restriction Act.

San Francisco, Sept. 25.—The Chronicle says that the Chinese are now seeking to evade the restriction act by taking advantage of the transit privilege. They come to San Francisco, it is asserted, and at once depart for Mexico or other foreign ports, only to cross the border back into this country at the first opportunity. Since July 1st, 758 Chinese have arrived in this city en route to foreign countries. Of this number 259 were ostensibly bound for Guaymas.

Salt Lake, 11 9 2 .518

Ogden, 11 2 9 .182

There is only one way to describe the game between Salt Lake and Ogden which took place yesterday afternoon on the local diamond. The locals simply made monkeys of the once haughty champions. They beat 'em out at every turn of the game and there were a good many turns. The diamond was soft and slippery and the Weber county crew furnished a fine burlesque for the crowd in their "malicious" tumbling and "human glow" acts. First Casey made a dive for a grounder and fell on his ear in attempting a back hand throw to Clark. The ball flew wide a little less than six yards and the runner took second. A slow grounder, then, was pitched to the pitcher, and a splendid chance for a neat double play, but the errand boy of the field sphere over Plake's head and about seven lobsters scurried for the ball. Plake, in a run in by getting "mad" simply because the ball bounced over his head. A slow bunt went Borchers' way and the big chief seized the horseshoe, dropped it and let it slip from his mitt. During this juggling act another run slipped in and the runners moved up another base.

Hansford had his little "stunt" and it was the most amusing of all. Two strikes had been called on Weaver the kid, and the next ball over was a beauty. Buck struck, but missed it, and Hansen let the ball go to the grand stand. Someone told Buck to run. He started for first base and reached it safely, then with the speed of the new street roller, went down to second and started third. Hansen held the ball and looked foolish, but finally shot it to Schnabels. His throw was slow and Buck reached the base on scheduled time. Three bases on a passed ball! Who ever heard the like? A few minutes later Buck scored the tenth run on a single by Bradley. These are only a few of the many incidents. Borchers tried to pitch again, but laid down the fourth. When Hansford relieved him, Up to that time the Frisco had been bumped for seven hits, gave three bases on balls, hit two men and made a wild pitch, all of which had something to do with the first nine runs. The chief also made an error. Oh! yes, he's a very good pitcher.

When Hansford came in the crowd looked for something different, but it didn't come. He was hit for two doubles and six singles, hit Taylor in the back with one of his astounding curves, and gave a pass. When the agony ended, the score stood 14 to 1, in favor of the immaculates.

Merry Meredith undertook the shooting end for Salt Lake, and it appears from the score he was touched for seven well scattered hits, gave four passes, but struck out five hands.

Judge Horn did not umpire, but the Ogdenites could not say they lost on account of something different, but it was there but when Ogden came to the bat he shut his eagle eye. He gave them the best of it on every occasion, and some of his decisions were so raw that even the Ogden pitchers looked at him in astonishment and then grinned. But who cared? Not Captain Webster, nor any of his men. The devotees in the grand stand cheered Emaciated (?) Bill, because they wanted the locals victory to be complete.

The same teams play this afternoon with "Pop" Eyer on the slab and Roy Evans for the red men.
